BRAKE PADS SPORT - MHR - MHR SYNT

BRAKE PADS

They were born on the racetrack, but they are perfectly suitable for the chaotic driving conditions imposed by our city traffic. Malossi Brake Pads have been designed with new ecological materials (a high percentage of carbon fibre and other metal fibres make up the pad's mixture).

- **Brake Pads SPORT (BLACK color)** feature increased braking life compared to the original pads and in addition they supply a greater braking power even at lower speeds.
- **Brake Pads MHR (RED color)** are slower to reach working temperature but provide exceptional braking at elevated speeds where deceleration is needed the most.
- **Brake Pads MHR SYNT (BRONZE color)**: sintered without asbestos, are manufactured with a specific material that makes them an optimal choice for extreme riding conditions.
  - Malossi recommends them for MAXI SCOOTERS and for SCOOTERS 50 with hiper racing utilisation.

The most evident qualities of these brake pads due to their high friction level, even at low temperatures, in comparison to the original ones, is reduced braking distance and longer life. **The use of cast-iron discs is not recommended with these sintered brake pads.**
Malossi Brake Pads series have passed with flying colours all the severe performance and endurance tests subjected by Malossi testers and riders. Therefore they are ready to move from the racetracks to everyday streets!

Asbestos-Free and Environment-Friendly.
